LETTER FROM THE PRESIDENT

STEPHEN SNYDER Field Representative at Plumbers and Steamfitters Local 157

The Tippecanoe Building Trades covers a nine county region which includes Tippecanoe, Benton, Carroll, Cass, Clinton, Fountain, Warren, Montgomery and White counties. One of our missions is to highlight the over 3,500 skilled craftsmen that live and work in this region who are members of the 17 trades associations that make up Tippecanoe Building Trades Council.

These same members have collectively spent tens of thousands of hours, on the job and in the classroom, learning their craft through their respective apprenticeship programs. These also are the same members that make up the fabric of the local community. You can find them after hours volunteering their skills for Habitat for Humanity, YWCA, City of Lafayette, Tippecanoe Arts Federation and Lafayette Transitional Housing just to name a few.

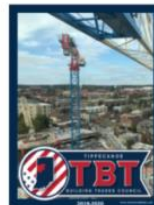

Please accept this 40th annual Tippecanoe Building Trades Council magazine for your reference and use. In the included publication you will find contact information for all the 17 trades including apprenticeship training and business opportunities. As always we are here to make your next construction project a success by supplying you with a **quality, competent, drug free, skilled, local workforce**. By doing this you will send a strong message to economic investors and business leaders that you are willing and able to make the investment, not only in business, but also in the **community**. Many of the local businesses and municipalities in the nine county regions use our skilled workforce to achieve success on project after project.

I look forward to hearing from you. Good luck with your next investment!

Stephen Snyder

A handwritten signature in black ink, appearing to read "Stephen Snyder".

President
Tippecanoe Building Trades Council

ON THE COVER : "Tippecanoe Building Trades members with the Operating Engineers Local 103 operate tower cranes in West Lafayette during the construction process of the HUB and Rise apartment building. Picture is looking West over Chauncey Hill Mall."

***"If you have a problem, and need help solving it right the first time,
why fight with the rest when you can call the best. "***

CAREERS IN CONSTRUCTION - WE INVEST IN THE FUTURE

INDUSTRY FACTS – APPRENTICESHIPS

THE INDIANA UNION CONSTRUCTION INDUSTRY APPRENTICESHIP PROGRAMS BY THE NUMBERS:

- Central Indiana boasts **14 apprenticeship training locations** for the Indiana Union Construction Industry, with **more than 60 apprenticeship training locations** statewide.
- There are **nearly 8,000 apprentices** enrolled in training programs in the Indiana Union Construction Industry.
- **78% of all construction apprentices** in the state of the Indiana were enrolled in union training programs.
- Each year, more than **\$42 million dollars** are invested in training by jointly managed apprenticeship programs in the Indiana Union Construction Industry.
- Since 1993, more than **13,000** apprentices from the Indiana Construction Industry have earned an Associate's Degree in Applied Science from Ivy Tech Community College. This 2-year degree is earned at **no additional cost to the student**.

WHAT TYPES OF JOB OPPORTUNITES ARE AVAILABLE IN THE UNION CONSTRUCTION INDUSTRY?

- There are **over 4,000 union contractors** employing more than **75,000 union tradeworkers** in the state of Indiana.
- Experts are predicting an expected shortage in construction workers over the next few years. **Today's apprentices will be rewarded with a wide variety of job opportunities.**

**ARE YOU
BUILT
TO
SUCCEED**
IN Careers in Construction

The Indiana Careers in Construction Association offers more than 60 apprenticeship training locations statewide. Trades range from Boilermakers, Bricklayers, Carpenters, Electricians, Elevator Constructors, Insulators, Ironworkers, Laborers, Operators, Painters & Glaziers, Plumbers and Pipefitters, Plasterers and Cement Masons, Roofers and Sheet Metal Workers. Each of our apprenticeship training programs offer trade classes and on the job training to prepare you for your career in construction. These are tuition free programs for students and offer an opportunity to earn an Associates Degree in Applied Science from Ivy Tech.

Visit Our Website at builttosucceed.org

SUMMER CONSTRUCTION CAMP

The Tippecanoe Building Trades Construction Council, along with ten professional trade associations put together the **first ever** Summer Construction Camp for anyone ages 16 years and up for the Greater Lafayette area.

This Camp allowed anyone interested in the skilled trades apprenticeship programs to spend an 8 hour day working alongside professional educators and apprentice instructors from the trade of their choice. They spent time operating heavy equipment, laying brick, bending conduit, welding, framing, metal work, painting and glazing, erecting steel structures, drywall install and finishes, cement finishing and insulation layout and install. Also virtual equipment was available to use for real life jobsite experience. All of this was performed in a controlled environment at local apprenticeship facilities. Space was limited and attendance was set at 25 students per trade.

This was a multiple week Camp with plenty of opportunities for registering for multiple days of instruction by the attendees. In fact many students signed up for all six week of classes. Attendance was brisk with several area Building Trade teachers taking advantage of the opportunity to learn about the bona fide apprenticeship programs that each trade has to offer.

Many of the participating trade associations reported an immediate uptick in traffic and interest in available job openings from a dozen of interested persons on a bona fide apprenticeship program.

President Stephen Snyder was quoted as saying "With the contracting labor market and the high demand for skilled construction workers the time is now to promote our apprenticeship programs. Our career pathways include financial upward mobility coupled with a first class education all centered on a strong local economy that has increasing skilled labor demands that we have not seen for a Century."

BOILERMAKERS #374

Dan Sullivan, Business Manager/Secretary Treasurer
dsullivan@local374.org www.local374.org

A Boilermaker erects and maintains various types of pressure vessels.

These range from small boilers in schools and hospitals, to coal-fired boilers in power generation plants, to blast furnaces and basic oxygen furnaces in the steel industry, and the precipitators and scrubbers which clean the exhaust. Boilermakers also work on tanks and pressurized containment vessels in industrial plants.

Members of Local 374 work in industrial construction, repair, and maintenance, manufacturing, shipbuilding and marine repair, railroads, mining and quarrying, cement kilns, and related industries.

Boilermakers Local 374 is a statewide local with 900 members. Their hall is located in Hobart, IN with satellite offices in Dale and Terre Haute.

NIPSCO power Plant

BOILERMAKERS APPRENTICE PROGRAM

Contacts: Steve Hurm Phone (812) 937-9717
Nick Tokarz Phone (219) 844-1765

www.local374.org/apprenticeship

Welding, burning, heavy and high rigging, and layout work are the most important skills a Boilermaker apprentice learns.

Members work primarily in plants that are considered heavy industry—steel mills, power generation plants for utilities, chemical plants, refineries, and mills. These plants can pose dangerous working conditions, so safety training is constantly taught and reviewed by the Union, the contractor, and the owner. This alliance has proved very successful in minimizing lost time accidents.

Boilermakers #374 started their apprenticeship program in 1968 and it has grown to over 200 apprentices currently enrolled in the four-year program. Apprentices must complete a minimum of 640 hours of in-class and shop training and 6,000 jobsite hours.

All Boilermakers of Local 374 are part of the MOST (Mobilization, Optimization, Stabilization and Training) Program. This program gives contractors access to members' welding and training certifications 24 hours a day. In this program 100% of Boilermakers dispatched to jobsites have been drug tested annually and have 30-hour OSHA training.

The Boilermakers are dedicated to providing expertise to companies and owners. Training centers are located in Dale and Hobart, IN. The training staff including Nick Tokarz in Hobart and Steve Hurm and Brad Young in Dale, provide decades of experience to apprentices.

Apprentice applications are accepted monthly on designated dates and times which are posted at:

BOILERMAKERS #374

THE BOILERMAKERS ADVANTAGE **DONE RIGHT THE FIRST TIME.**

Just what is a Boilermaker?
We're the skilled craftsmen
and women trained and
committed to stand apart
as the best. We step up when
others step back, completing
the jobs others are afraid to begin.
We solve the hardest problems.
And we're the choice for owners
and contractors who want the job
done right — on time, within budget
and safely. Every time.

We're a brotherhood. And everything we are
begins with our bond.

We're the International Brotherhood of Boilermakers.

EDUCATE, TRAIN AND PREPARE THE NEXT GENERATION

CARPENTERS APPRENTICE PROGRAM

Contact: Dale Newlin Phone (219) 947-3348

Apprentice carpenters train in a four-year program that leads to journeyman classification. A total of 5,200 hours are required through on-the-job training and 640 hours are spent in the classroom at the Lampkin Apprentice Training Center on the Ivy Tech Lafayette campus.

This work, combined with technical writing, human relations, and labor history classes at Ivy Tech, will earn an apprentice an Associate's Degree in Applied Science.

Apprentice applications are taken all year, with testing three times per year.

Journeyman upgrade training is ongoing all year and is designed to be industry-responsive and meet contractor needs.

Carpenters are also reaching out to high schools through Career Connections, a four-year program which prepares students to move directly into apprenticeship after graduation. Lafayette Jefferson and McCutcheon high schools are participating locally.

ELECTRICAL WORKERS #668

Electrical Workers Local 668 members handle electrical construction and installation for business, industry, education, signage, and telecommunications work.

This year they are on the job at several sites on the Purdue campus including Purdue Football Complex, The Hub, The Rise, Aspire ,Ag and bio Engineering ,Jischke Hall of Bio-Med Engineering ,Stem Teaching Lab Building along with miscellaneous laboratory renovations as well as jobs at Purdue Discovery Park.

Industrial work includes Cargill, Caterpillar, Evonik, Subaru Indiana Automotive, Wabash Trailer, Arconic and both Tate & Lyle plants.

Commercial work includes Westminster Village, Glen Acres Elementary School renovation, West Lafayette schools, and Lafayette Jefferson High School.

The 528 members of Local 668 serve Benton, Carroll, Cass, Fulton, Tippecanoe, and White counties. Benefits include overtime pay, family medical plans, optical and dental care, prescription plan, pensions, retirement plans, and death benefits.

The national association is the International Brotherhood of Electrical Workers (I.B.E.W.) 750,000 + members.

ELECTRICAL WORKERS APPRENTICE PROGRAM

Contact: Carol Korty

Phone (765) 449-4300

The Electrician's apprentice program includes 1,000 classroom hours over five years and 9,500 on-the-job hours and an Ivy Tech associate degree. The IBEW also provides ongoing journeyman upgrade programs.

Each year the Local accepts 10 to 20 apprentices. Applications are taken year round. Apprentices are trained at the Lampkin Training Center on the Ivy Tech Lafayette campus.

IBEW #668 started decorating downtown Lafayette around 1958. Members also donate their time and talents to Habitat for Humanity, YWCA (putting up the pink lights across the walking bridge), hanging banners downtown throughout the year, and volunteering time at the Salvation Army, Lafayette Transitional Housing, and Therapion Equine Center. IBEW #668 also supports United Way, Salvation Army, YWCA, the Union Food Pantry, and the Boy Scouts of America.

Fax (317) 217-1961

Elevator Constructors install, maintain and repair electric, hydraulic, steam, belt, dumbwaiters, residence elevators, freight elevators, shuttles, automatic people movers, monorails, airport shuttles, vertical conveyers, escalators, moving stairways and belt carriers. Elevator Constructors are also involved in electrical, mechanical and hoisting work.

Elevator Constructors were on the job on new construction and for modifications at multiple sites on Purdue campus this year.

Members participate in local United Way campaigns, among other community service efforts. The 165 members of Elevator Constructors 34 serve 57 Indiana counties.

Membership benefits include overtime pay, paid holidays, three weeks paid vacation for the first five years of employment, and four weeks paid vacation after five years, health and hospitalization plans and pension/retirement plans, including annuities and 401(k).

The national association is the International Union of Elevator Constructors.

Elevator shafts rise at the Creighton Hall complex, at the northeast corner of Harrison and South Russell streets on the Purdue West Lafayette campus.

ELEVATOR CONSTRUCTORS APPRENTICE PROGRAM

Contact: Todd Albertson Phone (317) 536-8173

Local #34 accepts 10-20 applicants each year for its four-year program that includes 144 hours of classroom and 1,700 hours of on-the-job training annually.

Apprentices receive training in safety, material handling, rigging, hoisting, blueprints, electronics, circuit tracing, hydraulics, and construction wiring. They also learn elevator and escalator terminology, assembly, installation, operation, customer relations, solid state theory and application, microprocessor-based controls, and solid-state motor controls. Upgrade and refresher courses are also offered to journeymen.

Elevator mechanics are licensed by the state of Indiana, with at least eight hours of training required every two years to renew licenses.

insulators.local18@yahoo.com

Heat and Frost Insulators are on mechanical, insulation, and fire stopping jobs for industrial, commercial, residential, and government users.

The work involves energy-efficient fire safety and pollutant-free environments which are vital to where we live and work.

Members of Heat and Frost Insulators Local 18 have been on the job this year at Subaru, Coroners Building, Purdue Horticulture, Indiana Veterans Home, Park 350, Purdue Convergence, Tippecanoe County Courthouse, Cumberland Elementary, Ross Ade and we will also be performing on the new Loeb Stadium Project.

The 293 members of the Heat and Frost Insulators #18 serve 32 counties in central Indiana, and five counties in central Illinois from Danville to Champaign.

Membership benefits include competitive benefits and wages, equal opportunity, overtime pay, union representation and security. The national association is the International Association of Heat and Frost Insulators and Allied Workers.

The salamander became part of the insulator's official logo over 100 years ago because of its unique ability to survive extreme temperatures.

HEAT & FROST INSULATORS APPRENTICE PROGRAM

Contact: Todd Conn aw18jtc@insulators.org

Apprentices complete a four-year training program covering metal layout, blueprint reading, mathematics, safe handling of potentially hazardous materials, OSHA safety, first aid, and CPR.

They spend 144 hours in the classroom, and meet for eight hours every Saturday from August through May. Apprentices also receive 1,800 hours of on-the-job training.

Special training and upgrade classes are offered including asbestos awareness, abatement and safety procedures, environmental management practices and monitoring, confined tank entry, fall protection, fire stopping, and other changes in the construction industry.

INDIANA INSULATION CONTRACTORS ASSOCIATION

Insulators are highly trained and skilled at a multitude of construction trades including mechanical insulation, fire stopping, asbestos and lead mitigation or abatement, sound attenuation, and specialty fabrications required in custom mechanical insulation installations. Union Insulators and contractors utilize best practices for green installation and are most qualified for LEED certified projects.

MECHANICAL INSULATION

Mechanical insulation is the one thing that goes into a building and starts paying for itself as soon as the system is activated – immediately saving energy and reducing greenhouse emissions.

FIRE STOPPING

Fire stopping is part of effective compartmentation: “boxes” built within a building or other structure to keep fire from spreading from the room of origin to other parts of the building or other structure.

ASBESTOS & LEAD MITIGATION

The safe and thorough removal and proper disposal of any type of asbestos abatement and lead abatement can include acoustic ceilings, furnace insulations, HVAC ducts, piping, sprayed-on fire proofing, and sound insulation, floor and ceiling tiles.

SOUND ATTENUATION

Proper installation of these noise reducing systems is essential for maximum performance of the mechanical system as well as the acoustical function.

SPECIALTY FABRICATION

Unique, custom insulation-fabricating solutions for the cutting, die-cutting, slitting or sawing required for any project's specifications, including varying degrees in temperature application, fire or noise-control insulation.

www.ironworkers22.net

Ironworkers work with structural steel (iron), precast concrete, reinforcing (rebar), bridges, windmills, heavy rigging, and pre-engineered buildings including the metal siding and metal roofing, stairwells and handrail glass or metal, welding. Safety and training are top priorities. Our jobs are safe and efficient.

We are on most large projects. Big or small, we do it all.
Projects you will find us on:

- The Rise and HUB Plus multi-story buildings near Purdue
- Purdue University projects - ABE, Stem, Aspire, Jensi hall.
- School Projects - West Lafayette High School, Cumberland Elementary, Happy Hollow Middle School, Lafayette, Jeff and Tecumseh, Glen Acres Elementary, Career Center LSC, Rossville High School
- Other Projects - Bridges Sagamore Parkway (52) over Wabash River, I-65 over Wabash River, Crawfordsville along I-74, Alcoa Aluminum plant (Arconic), Subaru auto plant, Eli Lilly (Evonics), Chrysler Transmission Plant (Kokomo), Windmills Meadow Lake phase 5 (White County) and many more

Community service includes hosting the International Ironworkers Apprentice Competition and donating to multiple charities. The Local also supplies space for the Union Food Pantry in Lafayette.

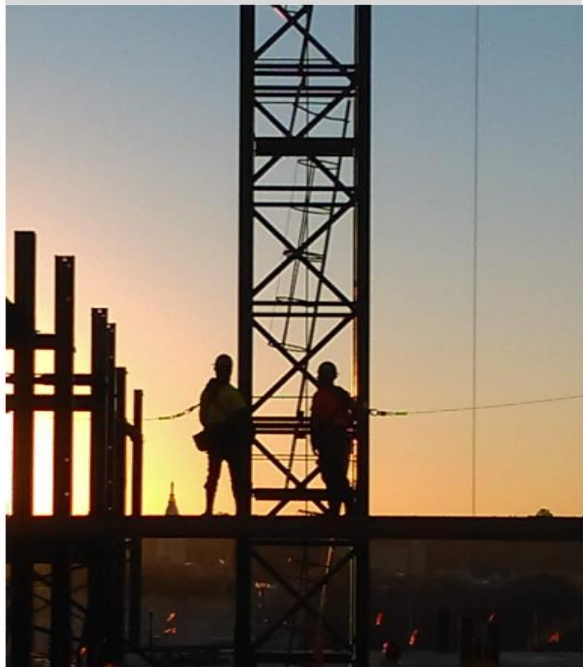

Ironworkers Local #22 members serve 17 Indiana counties. Benefits include overtime pay, healthcare plan, pension and annuity. The national association is the International Association of Bridge, Structural, Ornamental and Reinforcing Iron Workers.

IRONWORKERS APPRENTICE PROGRAM

Contact : Pascal Kateme Phone (317) 635-4766

In the four-year program, apprentices spend 4,000 hours in the classroom and 1,000 hours in supervised on-the-job training each year. Studies include blueprint reading, structural steel properties and handling, power rigging, rebar work, chain link fencing, welding, ornamental and sheeting work, pre-cast concrete and post tensioning, and safety.

Applications are accepted year round. Journeymen also continue their education with upgrade classes in hazardous material handling, confined space training, OSHA safety procedures, advanced welding, and CPR.

PAINTERS AND GLAZIERS APPRENTICE PROGRAMS

Contact: Phil Harper
Director of Training
Phone (317) 435-4097

PAINTERS 80/DISTRICT COUNCIL 91 Finishing Trades Institute

A four-year apprenticeship program with 160 classroom and 6,000 on-the-job training hours prepares members for their profession.

Apprentices spend a full week each quarter in the classroom at the statewide district council training centers.

The Painters accept 5 to 10 apprentices yearly. The Local also hosts training for all members covering safety, lead abatement and lift certification. OSHA 10, OSHA 30, first aid and CPR courses are also available.

GLAZIERS LOCAL #1165

CoGlazier apprentices train in a four-year program with nine months classroom and on-the-job yearly. Applications are taken year round.

PLASTERERS & CEMENT MASONS #692

Dave Newman, Business Agent

2535 S. 30th Street, Suite 9
Phone (765) 429-7172
Lafayette, IN 47909
www.plcmlocal692.org

Plasterers apply plaster to interior walls and ceilings to form fire-resistant and soundproof surfaces. They also apply fireproofing materials to steel structures and install prefabricated exterior insulation systems over existing walls.

Cement Masons place, finish, and repair concrete in commercial, industrial, heavy highway and bridges, and also concrete work on residential jobs.

Local 692 crews are currently working on: Schweitzer labs, Convergence, STEM and other various projects at Purdue. were doing work at West Lafayette Battleground, Glen Acres, Seeger, Harrison, Rossville and Lafayette Jefferson schools as well as ongoing projects at Chrysler in Kokomo .we also are currently working at Loeb Field and Tippecanoe County Fairgrounds.

Members give back by helping Habitat for Humanity by pouring slabs, floors, sidewalks, driveways, and garages.

Local 692 has approximately 1,000 members in the state of Indiana, in which Area 121 serves 11 counties. Membership benefits include competitive wages and benefits, overtime pay, healthcare plan, and pension and savings plans. Local 692 is part of a national association known as the Operative Plasterers and Cement Masons International Association.

Plumbers & Steamfitters fabricate, assemble, install, maintain and repair piping systems that transport all types of fluids, slurries, and gas in the residential, commercial, and industrial sectors.

Local 157 members are on the job at Purdue Polytech Gateway, P3 Gilbane Hagerman public private partnership student housing,

Agriculture Biological Engineering, Science Technology Engineering and Purdue Memorial Union Hotel are just a few projects at the university.

Some of the industrial sites include Subaru Automotive, Wabash National, General Electric Plant, Arconic, Heartland Automotive, Evonics, Frito-Lay, and Tate and Lyle North and South. Commercial work includes Westminster Village, St. Elizabeth Hospital East addition, and Old National Bank.

The 1,047 members serve 16 Indiana counties. Members benefit from a health and welfare plan, national and local pension plans, local savings plan, 401(k) retirement plan, and an eye and dental insurance plan.

The local members volunteer for United Way, Habitat for Humanity, YWCA, and Labor's Family Day Picnic among other agencies through-out the community.

Local 157 was established in 1896 and has 1,780 members in 16 counties including (in Indiana) Benton, Carroll, Clay, Clinton, Fountain, Greene, Montgomery, Parke, Sullivan, Tippecanoe, Vermillion, Vigo, Warren, White and parts of Knox and Putnam, and (in Illinois) Crawford, Vermilion, Douglas, Clark, Edgar and Richland.

Journeyman training and certifications available include OSHA 10, OSHA 30, welding, industrial rigging, AutoCAD, CFC certification, plumbing code, back-flow testing and prevention, medical gas, instrumentation and valve repair. Members benefit from a health and welfare plan, national and local pension plans, local savings plan, 401(k) retirement plan, and an eye and dental insurance plan.

Members of Road Sprinkler Fitters Local 669 install automatic fire protection systems in all types of construction, including industrial, institutional, commercial, and residential. This includes underground supply piping, which is connected to an integrated overhead piping system for suppression of fires. Sprinkler Fitters are required to lay out, install, and maintain a wide variety of fire protection systems such as wet systems, dry systems (which are used in cold storage or attics where temperatures are below 42 degrees). Sprinkler Fitters also install and maintain specialty fire protection systems such as pre-action, deluge, foam, FM 200, CO2, and dry chemical systems.

Sprinkler Fitters install all these different types of fire protection systems in new or existing construction, including factories and manufacturing facilities, sports arenas, office buildings, libraries, warehouses, nursing homes and hospitals, schools and universities, and research and development facilities. The Sprinkler Fitters are very proud to say that our trade saves lives and property.

Road Sprinkler Fitters Local Union 669 is a nationwide local union. This gives the members of Local 669 the flexibility to work in almost any part of the United States they would like to seek employment.

The 318 members in District 29 serve 28 northern Indiana counties and 11 counties in southwest Michigan.

ROAD SPRINKLER FITTERS APPRENTICE PROGRAM

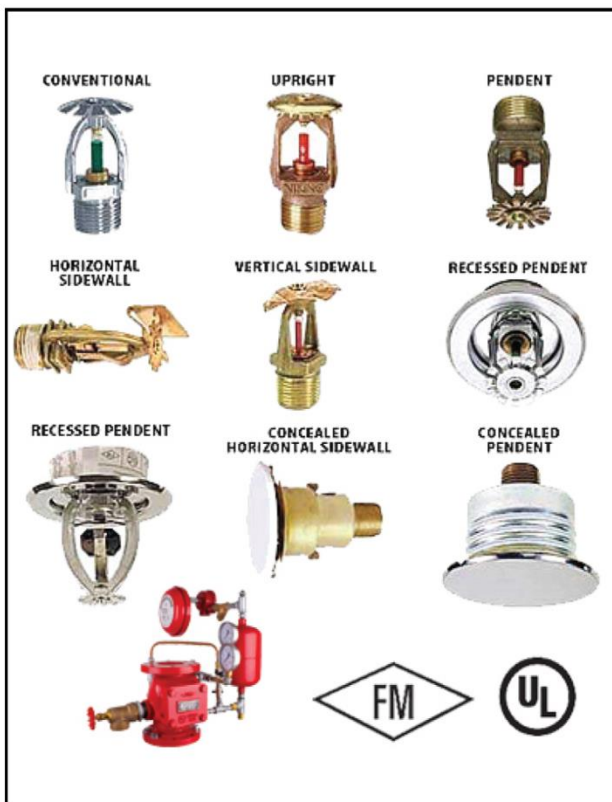

Contact: Charles Ketner
Phone (800) 638-0592, *811

Career preparation begins with a five-year apprenticeship program that includes correspondence courses through Washtenaw Community College, classroom sessions, and on-the-job training.

Safety is first and foremost and apprentices are trained in the care and proper use of tools and equipment. These will range from pipe wrenches and pipe threading machines to welding equipment and man lifts.

Members upgrade each year at special training seminars on new fire protection technology, applications and OSHA safety requirements.

Applications are taken through contractors.

ROOFERS #26

Joe Pozzi, Business Manager

Marcus Bass, Business Representative

25 West 84th Avenue

Merrillville, IN 46410

Roofers Local 26 can roof everything from shingles on a home, commercial roofs, industrial plants and mills. No job is too big or too small. This has been our tradition since we were established in 1919, 100 years and counting!

Our 300 members serve eight (8) counties in Northwest Indiana and our benefits include great wages, safe working conditions, two (2) retirement plans and health insurance. Our members also see the importance of other benefits which include a Roofer's Relief Fund (Short-term Disability), Scholarship Fund, Political Action Fund, Promotional Fund and an excellent training program.

Roofers Local 26 Apprenticeship regularly attends local High School Career Fairs and our Annual Lake County Trade Fair which approximately 1200 students will attend this year. We also provided donation work to the Habitat for Humanity, local veterans through Webb House Inc. and Opportunity Enterprises.

Sheet Metal Workers bend, cut, shape and attach metal to make products and structures. They work on roofs, gutters, siding, ventilation, heating, air conditioning, and duct systems. They also work with plastic and fiberglass materials.

In the Lafayette area, there are members working at Lafayette Harrison High School, West Lafayette High School, Battleground Middle School, Rossville Schools and Fountain County Jail. We are also proud to be working on projects at Purdue including the STEM Building, ABE and Purdue Memorial Hotel.

Industrial sites where sheet metal work is being performed include Subaru of Indiana Automotive, Wabash National, Caterpillar and Evonik.

Some of the community service work the men and women of Local 20 volunteer for are Dollars Against Diabetes, the annual Christmas Parade and Habitat for Humanity.

The Local has 1,656 Indianapolis/Lafayette members and retirees, and there are 4,133 members statewide. Membership benefits include pensions and annuities, incentive plans and health and welfare insurance programs that continue through retirement. Local 20 members also operate a credit union and contribute to a national scholarship program. An independent trust fund helps stabilize earnings and employment.
